TAKING NEW CLIENTS

MOBILE & DESKTOP APPS

An app built for real users, not just a demo.

I design and build custom apps for Android, iOS, and desktop (Windows & Mac) — from a simple single-feature tool to a full app with backend and login, ready to publish.

WHAT I BUILD

Android Apps

iOS Apps

Cross-Platform (one codebase)

Windows Desktop Apps

Mac Desktop Apps

Custom Tools & Utilities

PRICING

Simple App

One core feature, a few screens

from £150

Full App

QUOTE AFTER A CALL

Multiple screens, backend, login, ready to publish

custom

Desktop App

Standalone Windows or Mac tool

from £150

WHAT'S INCLUDED

- ✓ Quick call first to scope features & price
- ✓ Tested on real devices, not just an emulator
- ✓ Clean, native-feel UI
- ✓ Help publishing to Play Store / App Store
- ✓ Full source code, no lock-in
- ✓ Free bug fixes for 30 days after delivery

Already built your app? **App Store / Play Store Submission Handling** on its own — **from £30/platform**.

Have an app idea?

Message me on WhatsApp — let's talk scope & price
