TAKING NEW CLIENTS

CUSTOM AI TOOLS & AUTOMATION

Hand the repetitive part to AI.

I build small, working AI-powered tools around a specific task you do over and over — drafting replies, summarizing feedback, answering customer questions, writing product descriptions. Not a chatbot demo — a tool that actually does the job.

WHAT I BUILD

Auto-Draft & Reply Tools

Website AI Chat Assistants

Feedback & Review Summarizers

Product/Content Description Generators

Internal Document Search

Data & Insight Reports

PRICING

Simple AI Tool

One core AI feature — e.g. generate descriptions, summarize feedback

from £150

AI Chat Assistant MOST POPULAR

Trained on your content, answers customer questions on your site

from £250

Workflow Automation

Multi-step — draft, categorize, route — quoted after a call

custom
